

Cellcolabs MSC Exosomes

Cellcolabs is a Swedish company that aims to make high-quality stem cells and exosomes available. As a result of 20+ years of research and clinical experience at the Karolinska Institute, we are producing research and GMP-grade human bone marrow-derived mesenchymal stem cells and their exosomes at a large scale.

MSC Exosomes of the Highest Quality

Product information

- Secreted by High-quality GMP grade BM-MSC
- Enriched with anti-inflammatory cytokines and growth factors
- Isolated from rigorously screened bone marrow donors to ensure the highest quality safety
- Manufactured xeno-free
- Purified by 0.22 μ M filter
- Characterized through expression of CD9, CD63, and CD81
- Verified exosome size and count by Zetaview, a Next Generation NTA
- Recommended for research use only
- Made in Sweden
